

from the middle nodes, a slender panicle with long appressed branches and short pediceled open spikelets.

In Hitchcock's Manual of the Grasses of the United States this species keys out to *T. flava*, but the differences mentioned above enables one to separate them easily.

The writer wishes to express here his appreciation to Mrs. Agnes Chase, of the National Herbarium, for generous assistance in checking this plant with National Herbarium specimens.

OKLAHOMA AGRICULTURAL AND MECHANICAL COLLEGE,
Stillwater, Oklahoma.

REGULATIONS CONCERNING THE GASPESIAN NATIONAL PARK.—
The following regulations have been adopted by Order in Council, respecting the Gaspesian National Park:

Pursuant to article 9 of chapter 47 of the Statute 1, George VI, concerning the Gaspesian National Park,

That it be prohibited:

a) To hunt, in any manner whatsoever, the animals which are within the limits of the said park;

b) To have in one's possession, within the limits of the park, hunting implements of any nature whatsoever;

c) To enter the limits of the park without a special permit from the superintendent or the person named for such purposes;

d) To gather wild plants for any purposes whatsoever, without a written authorization from the Superintendent of the Park.—L. A. RICHARD, Deputy Minister of Mines and Fisheries, Province of Quebec.

For permits and further information botanists planning to visit the Shickshock Mountains should apply to SUPERINTENDENT OF THE GASPESIAN NATIONAL PARK, Department of Mines and Fisheries, Quebec.

FURTHER NOTE ON VERBENA STRICTA FORMA ALBIFLORA

HARRY V. TRUMAN

In the summer of 1934 the writer observed a very few plants of *Verbena stricta* Vent. forma *albiflora* Wadmond¹ scattered in a patch of the typical purple-flowered form of *V. stricta* in a pasture about two miles east of Rockton, Illinois, and several miles to the west of the
